

ST. GEORGE'S UNIVERSITY

Student Health Requirements

All students (new and transfer), entering St. George's University must submit proof of immunization and a completed health form.

The following documentation is required as a condition of matriculation and must be kept up-to-date:

For MD Students

- History / Physical exam within 6 months prior to registration
- Tuberculosis Skin Test (TB) - TB Screening within 6 months prior to registration
- Tdap (Tetanus, Diphtheria Acellular Pertussis) - Proof of Tdap specific vaccine received within 5 years prior to registration
- Measles, Mumps and Rubella (MMR): Serum IgG titers for Measles, Mumps, Rubella and Varicella are required
 - Any non immune results require booster vaccines
 - Copy of personal immunization record should be submitted
- Completion of the Hepatitis B series (3 vaccines)
 - Students must complete the first 2 vaccines prior to registration
 - The 3rd vaccine may be completed at the Student Health Center on campus
 - Students must have completed a Hepatitis b surface antibody test upon completion of the 3 vaccinations; alternately, a student may provide evidence of a positive Hepatitis b Core antibody test
- Meningococcal Meningitis Vaccine-
 - Students may review information regarding this vaccine at www.cdc.gov/ncidod/dbmd/diseaseinfo
 - Students must complete the Meningococcal Meningitis Section of the **SOM Health Form**

Completed health form to be submitted to Susan Conway, RN, MBA, Student Health Record Department, using one of the following methods:

Scan into pdf files and email to sconway@sgu.edu
